

AI-PARKHI

**AI assisted Image Quality Assessment To Identify Good and
Bad Quality Documents**

Key Points

1

API Based, Realtime Analysis of the quality of uploaded documents

2

Decision fusion of multiple Deep Learning models for better accuracy

3

Models optimized for better throughput for concurrent user requests

4

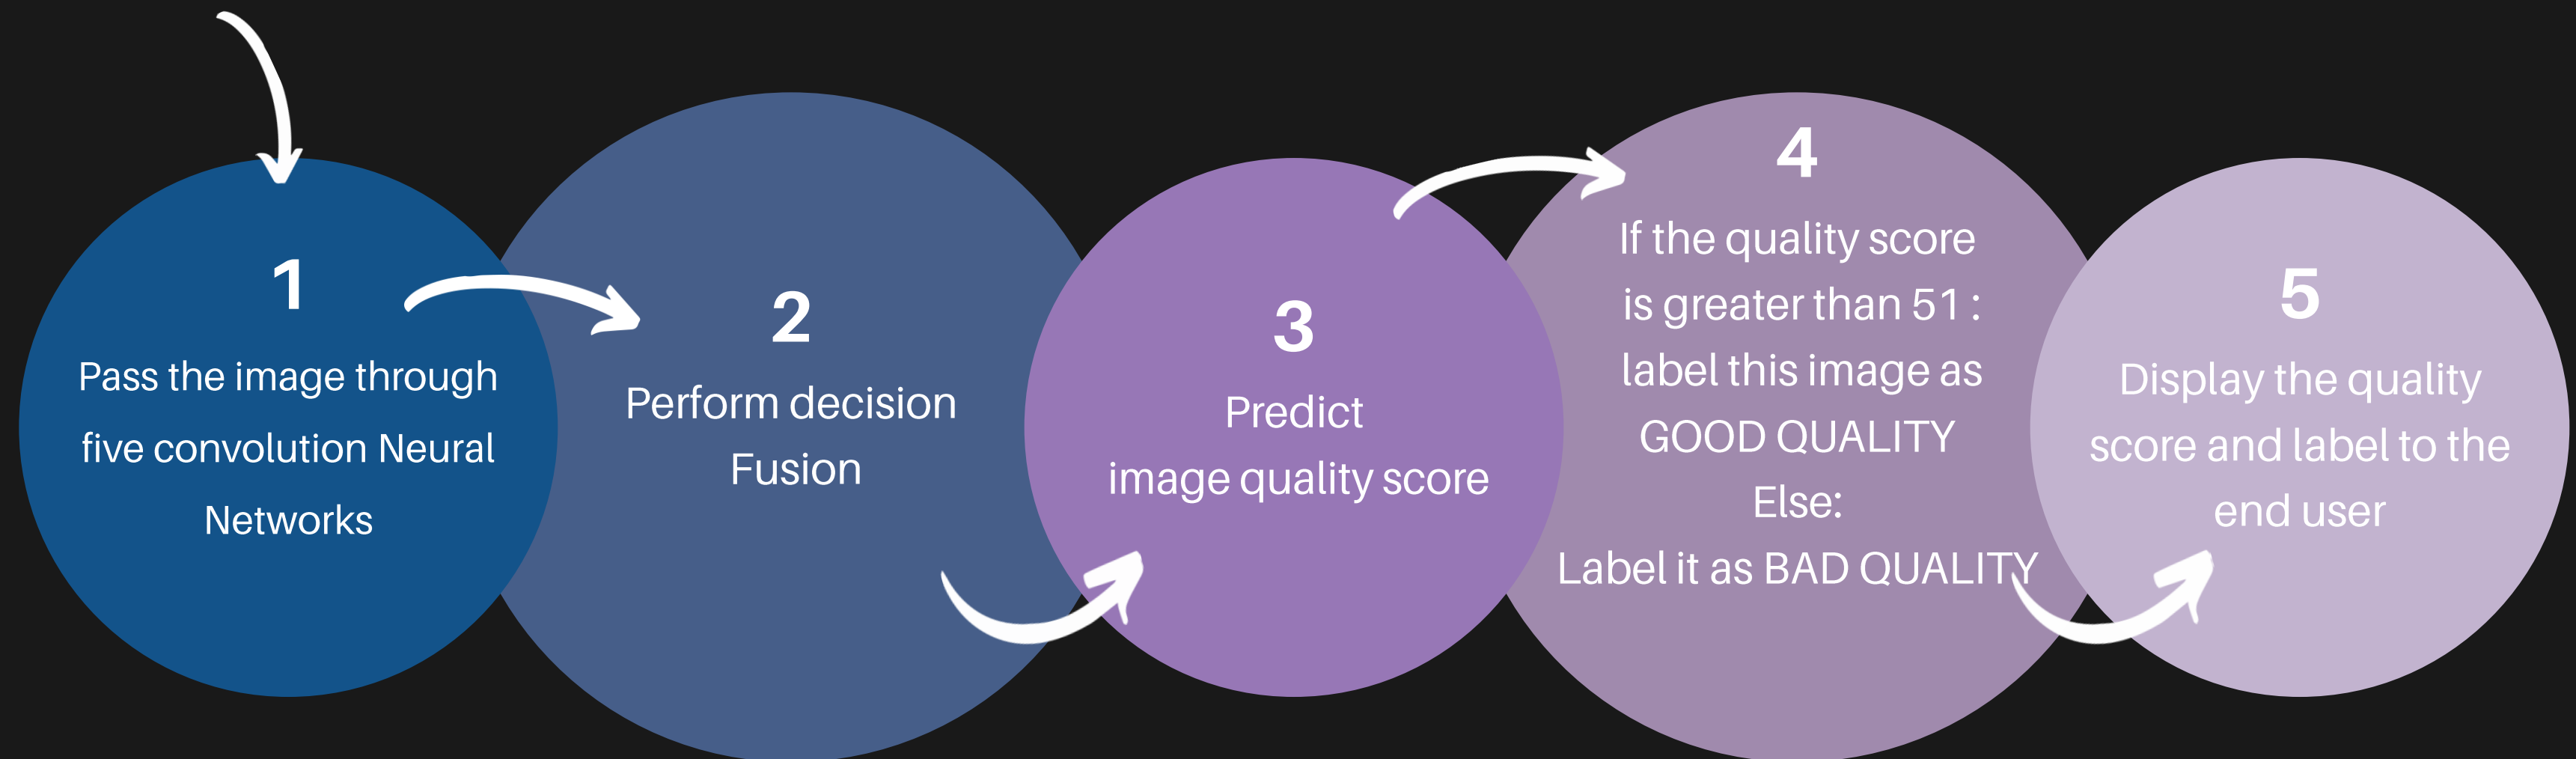

Automatic checking of image quality saves time, makes the process transparent and improves the overall user experience

5

Brings efficiency to the workflow

Process Flow

Input PNG image file

Beneficiaries

Petroleum and Explosives Safety
Organization (PESO)

Uttarakhand Renewable Energy
Development Agency (UREDA)

e-cabinet
Department of Cabinet Affairs
Government of
Arunachal Pradesh

e-cabinet
Government of
Tripura
